

MODO DI PROTEZIONE

IP 55

TYPE OF PROTECTION

NORME

IEC 529

COMPLIANCE

**CARATTERISTICHE**

Vengono utilizzate come scatole di infilaggio negli impianti in tubo, in zone ove sia richiesta una specifica protezione all'entrata di corpi solidi e liquidi.

**FEATURES**

Condulet are used as pulling boxes in conduit installations, in areas where special protection is required at the inlet for solids and liquids.

**COSTRUZIONE**

Corpo e coperchio in lega di alluminio esente da rame.  
Coperchio completo di guarnizione in elastomero con viti di fissaggio in acciaio zincato.  
Imbocchi filettati ISO 228.

**CONSTRUCTION**

Body and cover in copper-free aluminium alloy.  
Cover complete with elastomer gasket and with galvanised steel fixing screws, ISO 228 parallel threaded hubs.

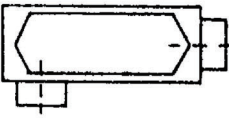

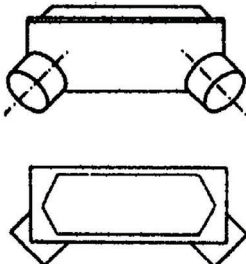

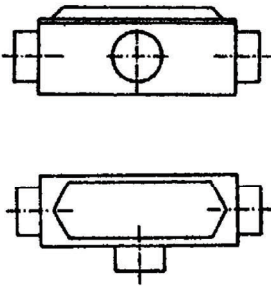

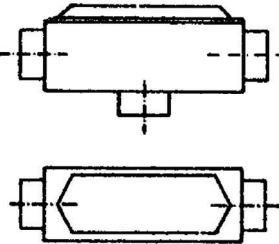

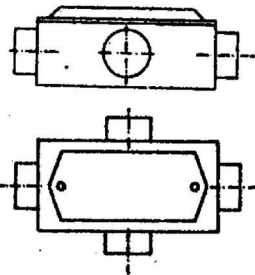

**OPZIONI**

Altre filettature a richiesta.  
Verniciatura a richiesta.  
Viteria inox.

**OPTIONS**

Other threads on request.  
Coating on request.  
Stainless steel screws.
